

Unit 3 lesson 1

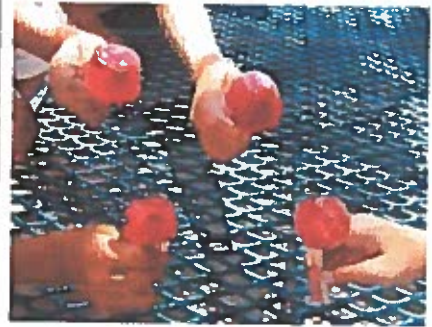

matter

Anything that takes up space.

physical
property

A characteristic of matter that you can observe or measure directly.

mass

The amount of matter an object has.

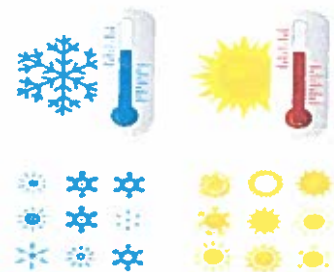

volume

The amount of space the matter takes up.

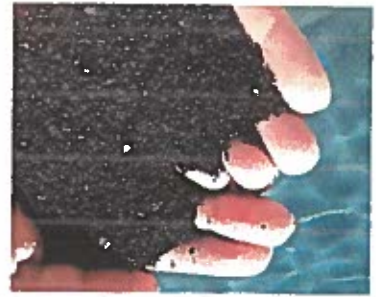

temperature

A measure of how hot or cold something is.

texture

A feel and appearance
of a surface or
substance.

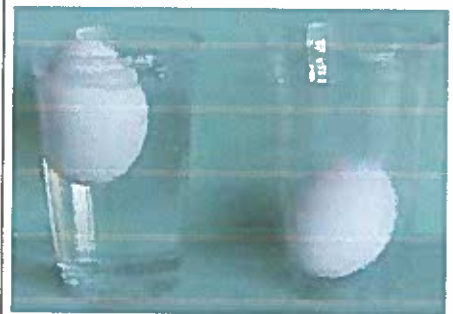

float

To rest or remain on
the surface (top) of a
liquid or gas.

sink

To drop to the bottom
of a liquid.

Characteristic

A distinguishing
feature or quality.

State of
matter

The forms in which
matter can be found.
